PROFESSIONAL SUMMARY

Frontend Developer with internship experience building responsive, high-performance web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Skilled in reusable component architecture, REST API integration, and state management with Redux Toolkit. Shipped 3 deployed projects with authentication, API-driven interfaces, and animated UIs. Seeking a Frontend Developer role to build clean, accessible, user-focused products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Tailwind CSS, Material UI, shadcn/ui, Sass, Framer Motion
Backend & Tools: REST APIs, Supabase, Node.js, Git, GitHub, Vercel

---

WORK EXPERIENCE

React.js Developer Intern | Bright Infonet Pvt. Ltd. | August 2024 – November 2024 | Remote

- Developed and maintained React.js components for responsive web interfaces used across multiple pages.
- Integrated REST APIs and implemented asynchronous data fetching with loading and error states to display live application data.
- Built reusable UI components that reduced duplicated code and improved consistency and maintainability.
- Collaborated with designers and developers in an Agile team to translate design requirements into functional interfaces.

PROJECTS

LearnX: Learning Dashboard

Technologies: Next.js, TypeScript, Supabase, Tailwind CSS, shadcn/ui, Framer Motion
Live: learn-x-dashboard.vercel.app | GitHub repo: github.com/abhishekGhosh99/LearnX-Dashboard

- Built a full-featured learning dashboard in Next.js and TypeScript with user authentication, profile settings, and course interfaces.
- Integrated Supabase for secure authentication and course data management.
- Designed a responsive, accessible UI with reusable shadcn/ui components and smooth Framer Motion transitions.

RideNow: Car Rental Platform

Technologies: Next.js, Tailwind CSS, Framer Motion
Live: ridenowcars.vercel.app | GitHub repo: github.com/abhishekGhosh99/RideNow

- Developed a responsive car rental web application with car listings and booking-related user flows.
- Created reusable components and a mobile-first layout using Tailwind CSS across all screen sizes.

Movix: Movie Discovery App

Technologies: React.js, Redux Toolkit, Sass, REST APIs
Live: movixmovie.vercel.app | GitHub: github.com/abhishekGhosh99/movix-movie-app

- Built a movie and TV discovery app featuring popular, trending, and top-rated content using a third-party REST API.
- Managed global application state with Redux Toolkit for efficient, predictable data flow.

EDUCATION

Bachelor of Arts | University of Delhi | 2020 – 2023
Self Taught Developer
